Sprint 3 Burndown Chart

- **Planned scope:** 34 story points over 14 days (linear plan from 34 → 0).

- **Actual progress:** Team completed 26 story points by Day 14, following a steadier linear burn pattern across the sprint.

- **Velocity comparison:**
  - Sprint 2 actual: 34 SP
  - Sprint 3 planned: 34 SP
  - Sprint 3 actual: **26 SP**

- **Key takeaway:** Reduced throughput compared to the previous sprint, but consistent daily progress suggests stable team capacity. Scope remained fixed, and the team maintained predictable burn despite completing fewer story points.
